- 1.2 It is the mutual desire of the **Institution** and the **IC** that their respective undivided interests in the **Patent Rights** be administered in a manner to ensure the rapid commercialization of the **Patent Rights** and to make their benefits widely available to the public. Therefore, in accordance with [35 U.S.C. §202\(e\)](#) and [37 C.F.R. §401.10](#), the **IC** is granting an exclusive license to **IC's** rights in the **Patent Rights** to the **Institution** under the conditions set forth herein.

2.3 “**Net Revenues**” means all consideration received by the **Institution** from the licensing of the **Patent Rights** pursuant to this **Agreement** less (a) **Expenses** and then (b) _____ percent (X%) of the remaining consideration for administrative overhead. In the event that a license is executed by **Institution** with a third party wherein the **Patent Rights** are licensed together with other technologies not falling under the definition of the **Patent Rights**, all consideration received by the **Institution** from the licensing of the **Patent Rights** pursuant to this **Agreement** through the third-party executed license shall correspond to the **Patent Rights**’ percentage contribution to the total amount received for all licensed technologies as determined by the **Institution**.

2.4 “**Expenses**” means all reasonable and actual out-of-pocket costs, excluding those reimbursed by a third party, paid by the **Institution** for the preparation, filing, prosecution, and licensing of United States and foreign patent applications, extraordinary expenses as provided in Paragraph 4.6, and the maintenance of the resulting patents or patent applications, exclusive of any salaries, administrative, or other indirect costs.

2.5 “**Research License**” means a nontransferable, nonexclusive license to make and to use any tangible embodiment of the **Patent Rights** and to practice any process(es) included within the **Patent Rights** for purposes of internal research and not for purposes of commercial manufacture or distribution or in lieu of purchase.

2.6 “**Practical Application**” means to manufacture in the case of a composition or product, to practice in the case of a process or method, or to operate in the case of a machine or system; and in each case, under such conditions as to establish that the invention is being utilized and that its benefits are, to the extent permitted by law or by regulations of the **Government**, available to the public on reasonable terms.

3. GRANT AND RESERVATION OF RIGHTS

3.1 The **IC** hereby grants and the **Institution** accepts, subject to the terms and conditions of this **Agreement**, an exclusive license, including the right to sublicense, under the **Patent Rights** to make and have made, to use and have used, to sell and have sold, to offer to sell, and to import any tangible embodiment of the **Patent Rights** and to practice and have practiced any process included within the **Patent Rights**.

Any license granted by the **Institution** under the terms of this **Agreement** shall be subject to this right of the **Government**.

3.3 The **IC** reserves the right to require the **Institution**, or its licensees, to grant sublicenses to responsible applicants, on terms that are reasonable under the circumstances when necessary to fulfill health or safety needs or when necessary to meet requirements for public use specified by Federal regulations.

3.4 In addition to the reserved right of Paragraph 3.3, the **IC** reserves the right to require the **Institution** to grant **Research Licenses** on reasonable terms and conditions. The purpose of these **Research Licenses** is to encourage basic research, whether conducted at an academic or corporate facility.

4. PATENT PROSECUTION AND PROTECTION

- 4.1 The **Institution** shall file, prosecute, and maintain patent application(s) relating to the **Patent Rights** and shall promptly provide to the **IC** all serial numbers and filing dates, together with copies of all these applications, including copies of all Patent Office actions, responses, and all other Patent Office communications. - 4.4 Notwithstanding any other provision of this **Agreement**, the **Institution** shall not abandon the prosecution of any patent application, including provisional patent applications (except for purposes of filing continuation application(s)) or the maintenance of any patent contemplated by this **Agreement**, without prior written notice to the **IC**. Upon receiving the written notice, the **IC** may, at its sole option, take over the prosecution of any patent application, or the maintenance of any patent.
- 4.5 The **Institution** shall promptly provide the **IC** with copies of all issued patents under this **Agreement**.
- 4.6 In the event that the **Institution** anticipates the possibility of any extraordinary expenditures arising from the preparation, filing, prosecution, licensing, or defense of any patent application or patent contemplated by this **Agreement**, including, without limitation, interferences, reexaminations, reissues and oppositions, the **Institution** shall provide the **IC** with all relevant information, and these extraordinary expenditures shall be included as **Expenses** only upon written agreement of the **IC**. The **Institution** and the **IC** shall agree on a mutually acceptable course of action prior to incurring these expenditures.

5. LICENSING

- 5.1 The **Institution** shall diligently seek licensees for the commercial development of the **Patent Rights** and shall administer the **Patent Rights** for the mutual benefit of the parties and in the public interest. The **Institution** shall ensure that any license granted for the **Patent Rights** is subject to the provisions of [37 C.F.R. Part 401](#) and the rights retained by the **Government** under this **Agreement**, including the requirement for substantial manufacture in the United States as stated in Paragraph 11.1.
- 5.2 The **Institution** shall not issue any royalty-free or paid-up licenses or assign **Patent Rights** to any third party, notwithstanding any other provision of this **Agreement**, without the prior written consent of the **IC**.
- 5.3 The **Institution** shall consult with the **IC** in the negotiation of any exclusive or partially-exclusive licenses, notwithstanding any other provision of this **Agreement**, and shall not grant these licenses without the prior review, opportunity for comment, and written approval of the **IC**.

- 5.4 Before licensing of the **Patent Rights** or any part thereof by the **Institution**, the **Institution** shall first notify and confer with the **IC** regarding any research funding related to the **Patent Rights** so as to determine the **IC's** interest in participating in any funded collaborative research project.
- 5.5 The **Institution** shall promptly provide the **IC** with complete copies of all licenses and sublicenses granted for the **Patent Rights**.
- 5.6 **Institution** agrees that its licensees shall supply, to the Mailing Address for **Agreement** notices indicated on the Signature Page, the Office of Technology Transfer, **NIH** with inert samples of the licensed products or licensed processes, as covered by the **Patent Rights**, or their packaging for educational and display purposes only.

6. ROYALTIES AND EXPENSES

- 6.1 The **Institution** shall distribute **Net Revenues** to the **IC** concurrently with distributions it makes under the **Institution's** patent policy, but in any case not later than April 1 for the preceding calendar year, on the following basis: (a) _____ percent (X%) of the **Net Revenues** as a royalty to the **Institution** and (b) _____ percent (X%) of the **Net Revenues** as a royalty to the **IC**.
- 6.2 All payments to the **IC**, required under this **Agreement**, shall be in U.S. dollars and payment options are listed in Appendix A.
- (a) Any loss of exchange, value, taxes, or other expenses incurred in the transfer or conversion to U.S. dollars shall be paid entirely by the **Institution**; and
- (b) Additional royalties may be assessed by the **IC** on any payment that is more than ninety (90) days overdue at the rate of one percent (1%) per month. This one percent (1%) per month rate may be applied retroactively from the original due date until the date of receipt by the **IC** of the overdue payment and additional royalties. The payment of any additional royalties shall not prevent the **IC** from exercising any other rights it may have as a consequence of the lateness of any payment.
- 6.3 The **Institution** shall submit to the **IC** annual statements of itemized **Expenses** as defined in Paragraph 2.4 and shall deduct the **Expenses** as provided for in Paragraph 2.3, except where **IC** has identified discrepancies in billing by the **Institution**, in which case, deduction of the contested item(s), as a part of the **Expenses** as provided for in Paragraph 2.4, shall be delayed pending resolution thereof.
- 6.4 In no event shall the **IC** be obligated to bear any costs for **Expenses** under this **Agreement**.
- 6.5 Each party shall be solely responsible for calculating and distributing to its respective **Inventor(s)** of the **Patent Rights** any share of **Net Revenues** in accordance with its respective patent policy, royalty policy, or Federal law during the term of this **Agreement**.

7. RECORDS AND REPORTS

- 7.1 The **Institution** shall keep complete, true, and accurate accounts of all **Expenses** and of all **Net Revenues** received by it from each licensee of the **Patent Rights** and shall permit the **IC** or the **IC's** designated agent to examine its books and records in order to verify the payments due or owed under this **Agreement**.

7.2 Upon request by the **IC**, the **Institution** shall submit to the **IC** an annual report, not later than April 1 of each year, setting forth the status of all patent prosecution, commercial development, and licensing activity relating to the **Patent Rights** for the preceding calendar year.

8. PATENT INFRINGEMENT

8.1 In the event the **IC** or the **Institution**, including its licensees, shall learn of the substantial infringement of any patent subject to this **Agreement**, the party who learns of the infringement shall promptly notify the other party in writing and shall provide the other party with all available evidence of the infringement. The **Institution** and its licensees, in cooperation with the **IC**, shall use their best efforts to eliminate the infringement without litigation. If the efforts of the parties are not successful in eliminating the infringement within ninety (90) days after the infringer has been formally notified of the infringement by the **Institution**, the **Institution** shall have the right, after consulting with the **IC**, to commence suit on its own account. The **IC** may join the **Institution's** suit or commence its own suit.

8.2 The **Institution** may permit its licensees to bring suit on their own account, but only if the **IC** and the **Institution** elect not to commence separately or join each other in any suit, other than as nominal party plaintiff, either by formal notice or by failure to act within the ninety (90) day period set forth in Paragraph 8.1. The **IC** shall retain the right to join any licensee's suit.

8.3 Neither a licensee nor the **Institution** shall take action to compel the **IC** either to initiate or to join in any suit for patent infringement. Should the **Government** be made a party to any suit by motion or any other action of a licensee or the **Institution**, the licensee or the **Institution** shall reimburse the **Government** for any costs, expenses, or fees which the **Government** incurs as a result of the motion or other action, including any and all costs incurred by the **IC** in opposing any joinder action.

8.4 Legal action or suits to eliminate infringement or recover damages pursuant to Paragraph 8.1 shall be at the full expense of the party by whom suit is brought. All damages recovered thereby shall first be used to reimburse each party for its expenses relating to the legal action, and the remainder of the damages shall be considered **Net Revenues**.

8.5 Each party agrees to cooperate with the other in litigation proceedings. The **IC** may be represented, at its expense, by counsel of its choice in any suit.

9. GOVERNING LAWS, SETTling DISPUTES

9.1 This **Agreement** shall be construed in accordance with U.S. Federal law, as interpreted and applied by the U.S. Federal courts in the District of Columbia. Federal law and regulations shall preempt any conflicting or inconsistent provisions in this **Agreement**. The **Institution** agrees to be subject to the jurisdiction of U.S. courts.

9.2 Any controversy or any disputed claim by either party against the other arising under or related to this **Agreement** shall be submitted jointly to the **Institution's** President or designee and to the **IC** official or designee for resolution. The **Institution** and the **IC** shall be free after written decisions are issued by those officials to pursue all administrative or judicial remedies which may be available.

10. TERM AND TERMINATION

10.1 This **Agreement** is effective when signed by all parties, unless the provisions of Paragraph 11.9 are not fulfilled, and shall extend to the expiration of the last to expire of the patents included within the **Patent Rights** unless otherwise terminated by operation of law or by acts of the parties in accordance with the terms of this **Agreement**.
